PROFESSIONAL SUMMARY

Results-driven Frontend Developer with a strong Fullstack background and specialization in interactive 3D web applications (React Three Fiber, GSAP). Adept at building scalable web architectures using Next.js, React, and Express. Bilingual professional fluent in Russian (Native), English (B1-B2), and Chinese (HSK 2), enabling smooth cross-border technical communication. Passionate about bridging the gap between complex backend logic and immersive 3D user experiences.

CORE SKILLS

- **Frontend & Animations:** React, Next.js, React Three Fiber (R3F), GSAP, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3.
- **Backend & Databases:** Next.js API Routes/Server Actions, Express, PostgreSQL, MongoDB, REST API.
- **State Management & Data Fetching:** Zustand, Redux Toolkit (RTK), RTK Query, Tanstack Query.
- **Tools & DevOps:** Git, GitHub, npm.
- **3D Modeling (Basic):** Blender (Optimization, GLTF/GLB export), SketchUp (Full 3D model creation).

LANGUAGES

- Russian: Native
- English: B1-B2 (Professional Working Proficiency)
- Chinese: HSK 2-3 (Conversational Basics)

EXPERIENCE

WEBBEE Technologies

Apr 2023 – Nov 2025

- Developed SPA and SSR applications using React and Next.js.
- Developed simple backend services using Express and API Routes in Next.js.
- Reduced server infrastructure and API hosting costs by 35% by implementing advanced caching layers with TanStack Query and Next.js ISR.
- Cut cloud storage and bandwidth expenses by 40% through rigorous 3D asset optimization in Blender, reducing average model sizes from tens of megabytes to heavily compressed, web-ready GLTF assets.
- Optimized server resource utilization and cut hosting expenses by 35% by migrating static assets and 3D models to Cloudinary, utilizing Cloudflare to cache API responses and deliver media closer to the user.

EDUCATION

Minsk institute of managment

Faculty of Engineering and Information
Technology

Sept 2014 –Jul 2019
